## ATWINC15x0B/ATWINC15x0-MR210xB Errata

---

---

### Overview

---

The ATWINC15x0B family of devices that you have received conform functionally to the current device data sheets available at the Microchip websites [www.microchip.com/wwwproducts/en/ATWINC1500](http://www.microchip.com/wwwproducts/en/ATWINC1500) and [www.microchip.com/wwwproducts/en/ATWINC1500-IC](http://www.microchip.com/wwwproducts/en/ATWINC1500-IC), except for the anomalies described in this document.

The silicon issues discussed in the following pages are for silicon revisions with the Chip ID listed in the following table.

**Table 1. ATWINC15x0B Family Device Identification**

Part Number	Chip ID	Silicon Revision	Affected Revision
ATWINC15x0B/ATWINC15x0-MR210xB	1503A1	A1	A1

**Note:** The Errata details described in this document will be addressed in future revisions of the ATWINC15x0B family of devices.

### 1. Errata Details

The following issue applies to the ATWINC15x0B family of devices.

#### 1.1 EVM Performance Degradation

In Wi-Fi® transmission, EVM performance is degraded at higher data rates at Channel 10 (2457 MHz) only, leading to a reduced data rate transmission but still meeting the IEEE 802.11 specification limit.

**Work around:** None

## The Microchip Website

---

Microchip provides online support via our website at [www.microchip.com/](http://www.microchip.com/). This website is used to make files and information easily available to customers. Some of the content available includes:

- **Product Support** – Data sheets and errata, application notes and sample programs, design resources, user's guides and hardware support documents, latest software releases and archived software
- **General Technical Support** – Frequently Asked Questions (FAQs), technical support requests, online discussion groups, Microchip design partner program member listing
- **Business of Microchip** – Product selector and ordering guides, latest Microchip press releases, listing of seminars and events, listings of Microchip sales offices, distributors and factory representatives

## Product Change Notification Service

---

Microchip's product change notification service helps keep customers current on Microchip products. Subscribers will receive email notification whenever there are changes, updates, revisions or errata related to a specified product family or development tool of interest.

To register, go to [www.microchip.com/pcn](http://www.microchip.com/pcn) and follow the registration instructions.

## Customer Support

---

Users of Microchip products can receive assistance through several channels:

- Distributor or Representative
- Local Sales Office
- Embedded Solutions Engineer (ESE)
- Technical Support

Customers should contact their distributor, representative or ESE for support. Local sales offices are also available to help customers. A listing of sales offices and locations is included in this document.

Technical support is available through the website at: [www.microchip.com/support](http://www.microchip.com/support)

## Microchip Devices Code Protection Feature

---

Note the following details of the code protection feature on Microchip devices:

- Microchip products meet the specification contained in their particular Microchip Data Sheet.
- Microchip believes that its family of products is one of the most secure families of its kind on the market today, when used in the intended manner and under normal conditions.
- There are dishonest and possibly illegal methods used to breach the code protection feature. All of these methods, to our knowledge, require using the Microchip products in a manner outside the operating specifications contained in Microchip's Data Sheets. Most likely, the person doing so is engaged in theft of intellectual property.
- Microchip is willing to work with the customer who is concerned about the integrity of their code.
- Neither Microchip nor any other semiconductor manufacturer can guarantee the security of their code. Code protection does not mean that we are guaranteeing the product as "unbreakable."

Code protection is constantly evolving. We at Microchip are committed to continuously improving the code protection features of our products. Attempts to break Microchip's code protection feature may be a violation of the Digital Millennium Copyright Act. If such acts allow unauthorized access to your software or other copyrighted work, you may have a right to sue for relief under that Act.
