

Customer Information Notification

201507012I

Issue Date: 17-Jul-2015
Effective Date: 17-Aug-2015

Here's your personalized quality information concerning products Digi-Key purchased from NXP.
For detailed information we invite you to view this notification online

QUALITY

Management Summary

Introduction of HVSON8 package for Mantis TJA1044GT/TJA1057GT, improvement of a parameter specification and minor datasheet clarifications. There is no physical or design change associated with this.

Introduction of HVSON package variants of TJA1044/TJA1057 Mantis products

Information Notification

For the Mantis TJA1044GT/TJA1057GT HVSON8 package versions are introduced and added to the datasheets. For TJA1057 the datasheet specification on the supply current in silent mode I_{cc} is improved (from 2.5mA down to 1.2mA). In addition a few minor datasheet corrections, additions and clarifications have been made to the datasheets of both TJA1044 and TJA1057.

Please note that:

- No physical or design change whatsoever has been made to the products
- The datasheet changes do not in any way influence the product's functionality, performance or reliability

The datasheet's revision history details the changes made. The updated datasheets can be obtained from the NXP e-PCN system you're subscribed to (see instruction below under the heading 'Remarks'). They will be published on the NXP website 30 days after publication of this CIN.

All this is explained in more detail in the attachment to this CIN (see instruction below under the heading 'Remarks').

Why do we issue this Information Notification

NXP is committed to inform customers about any datasheet update.

Identification of Affected Products

Product identification does not change

Impact

There is no impact to the product's functionality.

Data Sheet Revision

A new datasheet will be issued

Disposition of Old Products

Not applicable. There is no physical change to the non-HVSON products that were already released.

Remarks

Please use the link 'view online' above under the heading 'Additional information' to log in to the NXP e-PCN system you're subscribed to, in order to obtain the updated datasheets and attachment from the tab 'Files'. The datasheets will also be published in one month on the NXP website (www.nxp.com).

Should you not be able to obtain these documents, please contact your NXP sales representative or the e-mail address mentioned below under 'Contact and Support'.

In the NXP e-PCN system on the tab 'Products' you can see a list of your affected part numbers.

Contact and Support

For all inquiries regarding the ePCN tool application or access issues, please contact NXP "Global Quality Support Team".

For all Quality Notification content inquiries, please contact your local NXP Sales Support team.

For specific questions on this notice or the products affected please contact our specialist directly:

Name Kees van Hasselt
Position Quality Account Manager
e-mail address ivn.customer.service@nxp.com

At NXP Semiconductors we are constantly striving to improve our product and processes to ensure they reach the highest possible Quality Standards.

Customer Focus, Passion to Win.

NXP Quality Management Team.

About NXP Semiconductors

NXP Semiconductors N.V. (NASDAQ: NXPI) provides High Performance Mixed Signal and Standard Product solutions that leverage its leading RF, Analog, Power Management, Interface, Security and Digital Processing expertise. These innovations are used in a wide range of automotive, identification, wireless infrastructure, lighting, industrial, mobile, consumer and computing applications.
